Best Omelettes  
on the Planet!

The Happiest Place in Motown!

## WHERE IT ALL STARTED...

In 1974, a tiny little kitchen started serving omelettes in historic downtown Truckee, California. At just 10 feet, 3 inches wide, and with only 49 seats, guests would literally have to "squeeze in" to enjoy their breakfast. As the list of omelette options grew, so did the popularity of the restaurant, and by the mid 80s, it was considered a Truckee institution.

In 2003 it became a dream come true when the Young family bought the business and began to expand. Since then, the business and family have expanded tremendously with many locations and franchises available. In 2017, the 50th Anniversary of the Summer of Love, the Monday family opened the Squeeze In Modesto in their hometown, making their dreams of owning a family business come true. It was a perfect fit for this little hippie restaurant as owner Kathy is a child of the 70s and her son Jared loves serving people.

If you're interested in owning your own Squeeze In, visit [squeezeinfranchising.com](http://squeezeinfranchising.com) to learn more. From our families to yours, thank you for the privilege to serve you and we look forward to making all your breakfast and lunch dreams come true!

## Alien ORIGIN STORY

Long ago in a workshop far away a woodworker named Grandpa Marvin wanted to make yard decorations that were more than pink flamingos and so a friendly green alien was created. For years these aliens graced the lawns of family and friends, becoming neighborhood delights, and one even made it to the mothership, the Truckee **SQUEEZE IN**. One guest proudly wrote: **BEST OMELETTES ON THE PLANET** right next to the little alien decoration and thus the tagline and mascot were born.
